The largest strawberry bed in the country is that of Elder & Thompson at Berea. They have ten thousand plants, and have sold twelve hundred quarts in Richmond, this season.

Middle Breddell has been earnestly requested to repeat the operatic concert, during commencement week, but there seems to be a doubt as to whether the Court House can be obtained at that time.

For State Senator.
Col. Tom Jim Ballard, of Rockcastle county, is announced in 10-days CLIMAX as a candidate for the State Senate, at Lexington, Kentucky, to succeed Estill the district composed of Madison, Estill and Boone counties. Col. Ballard is a native of Madison, has many relatives and friends here, and ought to carry the county in the regular election without any trouble. He says he is certain of his own vote, and he is sure there will be no trouble about Estill. The election is only twenty days away, and the wheels of the Democratic machine ought to be revolving, and that rapidly. Col. Ballard is a popular man and would make a good Senator.

Must Be Fed.
Some weeks ago we mentioned that the State Railroad Commission had visited Lancaster, and heard complaints of coal dealers and others against the Kentucky Central for exorbitant freight charges. The Commission's report was published on last Wednesday. It holds that the road must refund to various parties in Lancaster certain specified amounts, to-wit: To J. Wesley West, \$4,775.35; 300 attorney's fee and costs; to H. A. Burdett, \$61.42; and \$25 attorney's fee and costs; to Ward A. Brown, \$47.00; and \$75 attorney's fee and costs. George O. Barnes.
This well-known evangelist preached in the Court House, Sunday afternoon, to a large audience. His subject was "Is God Love and Nothing Else." He seems not to have changed his doctrine any since he visited Berea. His health is evidently not so good, for he looks tired and worn. He continues to part his hair in the middle and wear side whiskers. His coat is a long gray one, buttoned from the collar down. He lectured Monday and Tuesday nights.

Of Course It Ended.
A paragraph is going the rounds of the press to the effect that the ancient Hill and Evans feud in Garrard county is settled, because Drs. Hill and Evans passed each other on the turnpike, and Hill spoke to Evans. To our certain knowledge, information and belief, nobody has been killed on account of that old antebellum trouble for more than twenty years, and Dr. Hill is nearly eighty years old. That item was intended for some edition of George D. Prentice's Journal.

All Decorated.
In every cemetery in the country where soldiers of the late war lie buried, the people gathered yesterday for annual tributes to their memory. In the South, where those who fought on opposite sides are buried near each other, there was a union of the friends of both. At the tomb of Gen. Grant, Sheridan, Logan and Meade the services were elaborate. The weather generally was unfavorable to outdoor exercises.—Courier-Journal May 31st.

Richmond forgot the day, or the dead?
For County Clerk.

By reference to the announcement column, you will see that Mr. Joe Oldham, of Lexington, is a candidate for County Clerk. He is a Democrat from away back, and has never asked for an office. He has always worked for the party's cause, and Union precinct never fails to roll up a rousing Democratic majority. The precinct has had little in the way of county office within the collection of the oldest man in the county. Mr. Oldham would make a good clerk, and asks you to carefully consider his claims. He is a descendant of the old pioneer Oldham who was in the fort with Boone.

The Homeopaths.
Dr. C. S. Holton attended the annual meeting of the Homeopathic Society at Lexington on last Wednesday and Thursday. There was a large attendance and numbers of interesting papers were read. The election of officers resulted as follows: President, A. L. Monroe, Lexington; Vice President, J. A. Vanant, Manly; Secretary, E. B. Johns, Danville; Treasurer, M. Delis, Carlisle; Board of Censors, J. A. Lucy, J. F. Edgar, O. H. Buck.

The President in his address read statistics from various asylums in which comparisons between the Homeopathic and Allopathic treatment was favorable to the former.

Forgotten, Yet Perfect.
The remains have recently been transferred from the old Presbyterian burying ground in Lexington. The Transcript relates the following:
"A grave was opened while the reporter was on the ground, and a fine metallic coffin was lifted to the surface. The earth which clung to it was brushed off, the plate uncovered, and there was exposed to view the well preserved waxen face of a woman. We look around through the gathering crowd for some one of those hearts, not less than their had gone down with her into that grave, and there was not one to be found. She was forgotten, even the spot where she lay was forgotten; and yet her form had not faded away, nor its attire lost its freshness."
A body sometimes remains intact for ages. In the chapel of St. Edward in Westminster Abbey is the tomb of Edward I. It is of the year 1307. The records of the Abbey show that "this tomb was opened in 1724, by permission of Dr. Thomas, the dean of Westminster granted to the Society of Antiquaries, a deputation of whom, with the Dean, attended the princess. The body was perfect, and was composed of five pieces, like a long box. The king died in 1307.
